**DETAILED ACTION**

***Election/Restrictions***

1. Applicants response to the restriction requirement mailed on August 27, 2003 (Paper No. 4) has been received and entered in the above-identified application.

However, upon reconsideration of the claims (in view of the re-numbering provided in the preliminary amendment of September 16, 2002) a new restriction requirement is being issued. Any inconvenience to the Applicants is regretted.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-55, 57-62, and 64-67 drawn to an addressable display, classified in class 428, subclass 411.1+.
- II. Claims 56, 63, and 68-70, drawn to method for displaying digital data, classified in class 379, subclass 90.1+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are the addressable display and the method for displaying digital data wherein each has a different function.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1773

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
